

To The Gardens School Parents

I am a member of the PTA for The Gardens School (TGS), located in Manurewa. Our school has a current role of approx. 600 children.

Our school is one of the many unlucky schools around NZ that have been affected by the "Leaky Building" saga and was identified as needing to be completely rebuilt which has been a long ongoing process.

The Government came to the party and funded the rebuild of the school buildings and grounds and they are looking fantastic! it is now up to the school and the community to create the rest of the school. Our first project is an outdoor playground and covered play area for the kids at a cost of approx.\$170k.

Our first port of call is our famous annual TGS Quiz Night, to be held Sat 18 August, this year themed as "Back to School". A key part of our quiz night and fundraising is the live auction run on the night.

We are calling on the community and local business to support our Quiz Night in the form of sponsorship of products and/or services we can auction off on the night.

Can I request Any Parents or associating companies that our parents work for, feel they could contribution or donate any vouchers or services we could use in our live auction that we will hold on the night,

All proceeds go back to our school,

Your time and favourable consideration is appreciated.

Kind Regards

Richie Gray
